Use Sub-Districts to simplify your Realtor.ca search

Oakville/Milton, July 5, 2011 Did You Know...

You're just a click away from finding your dream home in your perfect neighbourhood. And it's so easy. By entering the appropriate Oakville, Milton or Rural Sub-District (see below) in Realtor.ca, you can go directly to your neighbourhood of choice, reducing tedious scrolling through neighbourhoods that don't meet your criteria.

Here's how:

1. Click on www.realtor.ca
2. Refine the search by entering the Sub-District name instead of the name of the Municipality in the "Where do you want to look" box
3. Refine it further in the "What are you looking for" box
4. If you wish, add a price range, number of bedrooms and baths
5. Click "Show results" and the map displays all the properties in that sub-area that matches your criteria.
6. Select dream home
